

For information on the storage, distribution and disposal of vaccines please see chapter 3 of Immunisation against infectious disease: the green book <https://www.gov.uk/government/collections/immunisation-against-infectious-disease-the-green-book#the-green-book> .

If the cold chain has been broken it is recommended that you quarantine the affected vaccines in a “working” fridge and then check whether the vaccine can still be used with the Medicines Information Centre at Leicester (0116) 255 5779.

Public Health England have also produced guidance on reporting wastages and ordering replacement vaccines https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/338046/ImmForm_Helpsheet18_FridgeFailures_StockIncidents_acc.pdf
